THE EDUCATION BILL, 2016

MEMORANDUM OF OBJECTS AND REASONS

This Bill repeals and replaces the Education Law (2010 Revision) and the Education Modernisation Law, 2009, Law 7 of 2009.

The Bill gives effect to six Strategic Policies designed to provide the education system with necessary support and guidance to raise standards and bring about the best possible outcomes for students of the Cayman Islands. These policy priorities focus on addressing the following outcomes -

- (a) International Competitiveness and Raising Standards;
- (b) Special Education Needs and Disabilities (SEN/D);
- (c) Conflict Resolution Training and a Crime Reduction Strategy;
- (d) Technical and Vocational Education and Training (TVET);
- (e) Information, Communication and Technology and Science, Technology, Engineering and Mathematics; and
- (f) Public-Private Partnerships in Education and Training.

Out of these priorities came the realisation that the legislation supporting education was severely out of date, and an Education Team was tasked with drafting new, relevant legislation that is now represented in this Bill.

The Bill has 16 Parts. Part 1 contains clauses 1 and 2 which are preliminary provisions. Clause 1 sets out the short title and commencement provisions of the proposed legislation.

Clause 2 defines various expressions (for example, “child” and “compulsory school age”).

Part 2 of the Bill contains clauses 3 to 7 and sets out the duties of the Minister responsible for education. By virtue of clause 3, the Minister is required, among other things -

- (a) to determine the strategic direction of education and promote effective implementation of educational policy (clause 3(1)(a)); and
- (b) to promote the education of the people of the Cayman Islands by the establishment of a varied, relevant and comprehensive educational system for the purpose of fostering the spiritual, emotional, cultural, moral, intellectual, physical, social and economic development of the community (clause 3(1)(b)).

Clause 3 also makes provision for the establishment of bodies to advise the Minister.

Clause 4 requires the Chief Officer, under the direction of the Minister, to supervise the administration of education and the implementation of the national policy for education services. The clause also requires the Chief Officer to submit to the Minister an annual report containing specified information (for example, information describing the standards of achievement and progress of students receiving education in Government schools, assisted schools and independent schools, together with such information as may be available about the achievements of home schooled students and other students educated otherwise than at schools).

Clause 5 of the Bill makes provision for the appointment of a Director of the Department of Education Services who shall ensure that Government schools are administered in a proper and efficient manner.

Clause 6 makes provision for the establishment of the Education Council which will be responsible for advising the Minister on matters pertaining to education.

Clause 7 enables the making of regulations relating to appeals against decisions made by the Education Council.

Part 3 of the Bill contains clauses 8 and 9 and deals with the registration of educational institutions. Clause 8 prohibits persons from owning, operating, managing or participating in the management of, a non-Government educational institution, unless the institution is registered.

Clause 9 requires the maintenance of a register in respect of Government educational institutions.
